

Volunteer for a study to help develop the technology to regain mobility after stroke

Come to the CCTR motion lab capture at MIT for up to one hour, to walk with REEV SENSE wearables.

 Help us create a future where stroke survivors can walk independently and confidently.

participate?

The critera is simple:

• 18 years of age or older

History of a stroke.

You may be compensated for your participation for up to \$50! → For more questions, please email us at cctr@mit.edu
